

# Statistician's Report Number 2 2010

by Luke Travers

## Geelong Relay – 5 June 2010

120 athletes braved cold and wet conditions to contest the annual Geelong Relay. Old Xaverians again made it a double with wins in the open and women's sections. These were their third and fourth wins in the event respectively. Haileybury's open team had the two fastest individual lap times, but couldn't match Old Xavs' all-round talent. Old Xavs women had the three fastest times and were naturally the winning team.

Mark de Luca beat his previous best time to set a new St Kevin's course record of 18:07. Old Brighton gained their best ever team placing at the event with 18<sup>th</sup>. Natasha Hampson of Old Carey lowered her own OC record for the event to 22:39 and was part of an OC women's team that set a club best time. Haileybury women, in finishing second, recorded their club's best ever placing and time at this event. Old Xaverians women lowered not only their own but the APSOC record of 63:06 set in 2009 to 62:17.

## Dyson Relay – 15 May 2010 (amendment)

Apologies to Andrew Edwards, whose 1993 time at the Dyson Relay was accidentally erased from the records. He and Kynan Dawes are equal record holders for Old Carey for this event.
